NOSY BE SOLIDAIRE
An Eco-Responsible Trip to Change Lives

MADAGASCAR

Duration: 1 to 8 days

Globatlas offers an immersive solidarity and sustainable experience in Nosy Be, hosted in a truly unique hotel setting. Accommodation includes spacious beachfront bungalows or garden-view rooms, combining comfort with traditional Malagasy architecture.

Each night's stay contributes to funding the vocational training of underprivileged Malagasy youth in hospitality, tourism, and languages. Travelers are encouraged to engage with these future professionals through classes, cultural exchanges, and shared activities. Beyond accommodation, the excursions offer an authentic dive into the local culture. **Lokobe National Park** to explore endemic wildlife and flora, **Traditional Malagasy village** for a glimpse of rural life and a breathtaking sunrise, **Vanilla and rice farms**, connecting with local producers (often parents of the students), **Ylang-ylang distillery**, showcasing the island's fragrant heritage, **Canoe excursion through mangroves** to observe birdlife, Travelers can also enjoy a unique culinary and sensory experience with a traditional Malagasy breakfast, prepared and served by the students in training, in a stunning natural setting. Wellness massages, yoga, and meditation sessions enhance this rejuvenating and environmentally conscious offer.

Each activity, service, and meal directly supports the local economy while raising visitors' awareness of responsible tourism. This stay is more than just a getaway: it's a human connection, a tangible form of support, and a promise of lasting transformation—for both travelers and the young beneficiaries.
