

SARODRANO – THE HIDDEN ESCAPE

10 days / 9 nights

FROM 3265 $ PER PERSON
(BASED ON 2 PARTICIPANTS)

An exclusive journey where turquoise waters meet untouched wilderness.

GLOBATLAS
ELSSA OCEAN INDIEN

A timeless escape at the edge of the Indian Ocean

Where powdery white sand meets turquoise waters, and where ocean winds whisper long-forgotten legends, lies a preserved haven: the Sarodrano Peninsula.

This **10-day / 9-night** journey is an invitation to slow down, reconnect, and surrender to the beauty of nature. Upon arrival in Tuléar, you'll be welcomed and transferred to **Résidence Eden Ecolodge**, a peaceful sanctuary nestled between sea, dunes, and mangroves.

Each sunrise reveals a breathtaking panorama, where the sky melts into the crystalline waters of the Mozambique Channel-an idyllic setting for an unforgettable escape.

Highlights of the Experience

• Nosy Ve – The Sacred Island

Set off in a traditional pirogue to reach Nosy Ve, a protected island sanctuary watched over by elegant tropicbirds.

Snorkel in a natural aquarium filled with colorful fish and vibrant corals-one of the purest marine treasures of the southwest coast.

• Barn Hill – A Spectacular Overlook

Explore the dramatic cliffs of Barn Hill, offering sweeping views over the Bay of Saint Augustine.

Here, tales of pirates, sailors, and ancient kings blend with landscapes carved by time and tides.

• Onilahy River – Serenity on the Water

Glide peacefully along the calm waters of the Onilahy River, bordered by lush mangroves and traditional villages.

A soothing moment in the heart of an untouched natural environment.

• Encounter with the Vezo People

Meet the Vezo, the legendary "sea nomads" of Madagascar.

In their village, each smile becomes an invitation to share, learn, and understand a way of life shaped by the rhythm of the tides.

These moments of exchange are among the most meaningful of the journey.

• Reniala Forest & Sacred Baobabs

Walk through the sacred forest of Reniala, home to majestic ancient baobabs-silent witnesses of centuries past.

A unique site combining biodiversity, culture, and spirituality.
